

Guyana Mission Trip, 7 Miles Kumaka Kubanna Road, Morucka Region 1
Interior Regions of The Country
Monday night, February 20, 2006

Pastor Tony:

It seems that the word got around that God was doing some stuff in this place. The place was packed and there were people all around the outside. For the word to get around requires a lot of walking. Some going 20+ miles to tell their friends and family, then the 20+ mile walk back. It was amazing to see how they arrived before the scheduled time to start- that spoke to us!

They began with worship and then moved into praise (typical for this country). The Holy Spirit came and moved among us with a few of us becoming slightly intoxicated (under the immediate influence of The Holy One). An interesting ephemeron tonight- we saw again that the more people that are together, the more bashful and shy that they become. The Holy Spirit clearly told me that we would need to use words of knowledge to get them to move. As we gave forth numerous words, there were only 2 people that responded with a raise of the hand and it was just a little lifting of the fingers a tiny bit.

We kept giving the words without response, but I knew that the conditions were there. On the outside it looked like we were missing it. Well, we are learning that in the kingdom things are not usually as they appear externally. When I asked the people who those words were for to come forward, a whole pile of people came up. Interestingly, there was at least one person for every word. Hallelujah! This is continual training for us. Everyone I prayed for was miraculously healed.

Even though the people are shy, when they were touched, they willingly stood before the people to give testimony. Their faith level is growing! We prayed for a release of the revelatory gifts with dreams and visions. We told them to bring back their dreams in the a.m. and we would interpret for them. Even after a long service and a long walk home, many people hung around in His Presence!

Casey:

Wow what a day this turned out to be. Some things are strange and you need to adjust to them like our bedroom is the church and after the meeting this morning no one wanted to leave. We all were crawling back into our tents and hammocks to do a little soaking as the locals just watched on. You could hear the children giggle in the back ground and some of the others tried their hand at playing the keyboard. They really love to fellowship here and you can feel that they are one big family here and they all love each other.

This evening service was a great God blow out with awesome worship. They were singing songs that we knew and with out a cranking sound system you could understand what was being sung. The Holy Spirit showed up real quick and began to move on the

people. That was all we needed to start drinking of the Holy Spirit and drink we did. I'm not sure what they thought of this seeing us on the floor in a big heap but at that point who cares.

While on the floor God began to show me that I needed to pray for Sherwin he has been going through a rough time. God is so good and Sherwin is doing so much better now all filled up and back on track. Tony's teaching once again was real good even if I have heard it a couple times there is always new meat in it. We released words of knowledge and started to pray. The first one I prayed for was a lady that was having problems with her throat and it was very painful but not for long. God touched her and set her free. I also got to pray for a lady that had a problem with her right eye. She couldn't see very well and her eye was burning. I began to pray for her as the power of God showed up and began to touch her. I asked how she was doing and she was very excited she could see clearly now and the pain well it was all gone too. Thank you Lord.

After the meeting was all over we ate salt fish and bake for dinner and then off to the river we went. Boy is that water cold. Blessings ><

Harvey:

This evening was another totally awesome God encounter. Worship was off the charts again. I believe everyone that was here was totally into worship and God showed up in a mighty way. It is always so good when there is unity. Several of us got blasted and wound up on the floor where God continued his work in each of us. Those God encounters are soooooooooo good.

Tony gave another good message and then gave words of knowledge. God was moving powerfully and all were healed. I prayed for a woman that had pain in her eyes, throat, and feet and another that had pain in her eyes. Then I videoed a few more testimonies and it was off to dinner.

WES:

WOW!!! What an awesome evening. Worship here never seems to end. With each passing service I am seeing more and more that worship and the presence of the HOLY SPIRIT is so much more important than any schedule that we have. The whole body was into worshipping the KING of KINGS and the unity was here in a big way. GOD loosed my feet and I danced like never before. Some of the team got blasted to the floor in a pile and it seemed as if everyone in the church was singing in the spirit, and it was LOUD!

A second wave of the spirit started when Tony had the service turned over to him. He was running up and down the aisle, people were shouting, jumping up and down and then I got blasted, got real drunk in the spirit!! The gifts were brought forth and a lady gave a tongue and interpretation which was encouraging to the people. Tony spoke and then words of knowledge came forth. People finally started coming forward for prayer. Everyone was healed. Praise GOD. I prayed for a lady with a lot of hip pain. GOD

healed. I backed up Casey praying for a woman with burning in her right eye and bad vision. GOD healed. Everyone healed!!!!

Worship started up again after testimonies of healings. No one wanted to leave. I'm getting hooked on doing the works of JESUS. I want more and more and more and more of HIM.

Pastor Randy:

Well tonight I did something I never did before. Actually on this trip there have been several new things for me. There was a word of knowledge for someone with pain when they urinate. During the ministry time I prayed for an elderly man who had that problem. I commanded the infection to leave him and for God's healing virtue to flush his elimination system. I then asked if he thought he could urinate. He said yes, so I told him to go outside and to urinate and to see what the Lord has done for him. He got a flashlight from his wife then went outside. When he came in he said he was fine now, no pain. He testified to the Lord taking pain from him.

This trip shows God working in power and demonstrating His Love to the people. It has also showed me many lessons. I feel like I did when I went to China. After all the training I still realized all the areas that still need work in me, and they are many. I also realize that God's training of me is specific to the calling He has given me. I am not Tony, Casey, or any body else, I am Randy and I must flow in the leading the Father has for me, and that is O.K.

Pastor Rakesh:

Praise the Lord, glory to God it's amazing what's happening down here in the interior. Last night we had a tremendous praise and worship service, wow people start to dance and shout. The building was so full that there weren't seats for everybody. I did an average count of people inside and outside the building, it was over 300 people, there were more people outside than inside the building. It seems like people were coming from everywhere. I hardly see houses it's like people were coming out of the bushes. There were people who literally walked 20 miles some 15 to come to the service and have to walk back 11 to 12 pm in the dark bush to go back home . Tears came to my eyes to see the sacrifice they make to serve God. No wonder when they start to praise God the anointing came down like it did. Thank God for His faithfulness.

Pastor Tony started to share the word and went into word of knowledge. It seems like that is the way Lord has chosen to minister to them and people start to come up for healing. Every person who came up was healed some of us were drunk in the Holy Spirit fell on the ground woowow it was good!!! I prayed for one girl who had stone in both of her kidneys. She is a pastor's daughter, she told me her mom also have this problem so I broke the curse and prayed. All the pain left her and we both believe she is healed Glory to God I also prayed for a woman who testified all the pain gone. Glory to God!!!

Igor:

The worship in this church is so alive. They're really good even though they don't have all the fancy equipment and things. I prayed for a man who had back pain and God healed him. I also prayed for a lady with stomach pain and she got healed. Seeing Pastor Tony, Harvey and Casey get drunk was really funny it's all good I made sure that I took lots of pictures. He he

Sherwin:

I greet you brethren in the Name of The Lord. How good it is to dwell in the Presence of God! As we worshipped God, the Holy Spirit came like a mighty rushing wind! Casey, Harvey were drunk in the Spirit. They fell to the ground having fellowship with The Lord. Then we had the word of knowledge.

There was a lady who came for prayer for her heart that was hurting and migraine headache. As I prayed with her, I commanded the false spirit to come out of her. I take authority over the spirit of pain in her chest. It left! I asked her how she felt; she said "there is no more pain!" I just want to give God praise, honor & glory. Another woman troubled with pain in her tummy. As I prayed with her I asked the Holy Spirit to come with His love. I take authority over the spirit of pain. I renounce in the Name of Jesus. I ask the Holy Spirit to come and sweep the house clean and when I asked how she felt, she said "I am healed!" I thank God for her, glory be to God!
